Data Science Intern — 08/2023 – present
Bharat Intern
As a data science intern, I'll be given to work on two data science problems and produce their source code.

Full Stack Web Developer Trainee — 11/2022
Prutor (by IIT Kanpur) ↗
It was a training-cum-internship program, where we were first provided knowledge about web technologies, like HTML, CSS, Bootstrap, PHP, and MySQL. Then, we were assigned some project topics to work on.

Projects

Loan Prediction System using Machine Learning — 05/2023
We made a loan prediction model, which could determine whether a person was elligible to be sanctioned a loan by any particular bank or not.
Tools used: *Python, Matplotlib, Seaborn, Flask*

Shark Tank India Data analysis — 08/2023
An analysis was performed on the data from the first season of the Shark Tank show.
Tools used: SQL

Certificates

- Introduction to Deep Learning & Neural Networks with Keras ↗
- Machine Learning with Python (with Honors) ↗
- Introduction to NoSQL Databases ↗

Skills

Programming Languages
Java, Python, R

Web Development
HTML, CSS, Bootstrap, PHP

Data Manipulation
MS Excel, Power BI, Tableau

Soft Skills
Leadership, Problem solving, Event management

Awards and Achievements

KaggleX BIPOC Cohort Program Mentee — 07/2023
KaggleX

Dr. Sarojini Agarwal Award — 11/2022
Noida Institute of Engineering & Technology
